

Foldable LED Poster Displays

The Foldable LED Poster Screen is a new folding designed for modern commercial, retail and event applications. Combining portability, durability and superior visual performance this product redefines convenience and flexibility in digital signage.

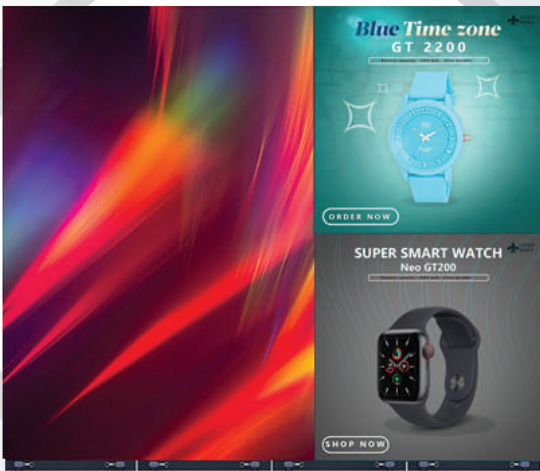

Foldable Design for Ultimate Portability

This space-saving design features a unique foldable panel that reduces its size by up to 50%, making it perfect for easy storage, transport, and on-the-go use. It sets up quickly, unfolding and ready to use in minutes without any complicated assembly.

Seamless Multi-Screen Splicing

It can be used as a single device and also supports seamless splicing of multiple devices into a large screen.

GOB Technology for Enhanced Durability

The advanced Glue-on-Board (GOB) technology makes the LED display highly durable, providing protection against moisture, impacts, collisions, water and UV exposure, allowing it to perform reliably in harsh environments.

Integrated Swivel Wheels

Equipped with four heavy-duty lockable casters, it offers smooth 360° movement for easy repositioning in event spaces, showrooms or retail settings. A strong steel base provides excellent stability during both transport and use.

Specifications

Indoor Usage

Pixel Pitch

P1.538 / P1.86 / P2 / P2.5

Module Size

320 * 160mm

Size

640 * 1920mm

Brightness

≥700 nits (Adjustable)

Refresh Rate

≥ 3840Hz

Protection

GOB, IP65 in Front, IP31 in Back

Controller

Huidu B6 or Novastar TB50

Outdoor Usage

Pixel Pitch

P2.5 / P3.076

Module size

320 * 160mm

Size

640 * 1920mm

Brightness

≥4000 nits (Adjustable)

Refresh Rate

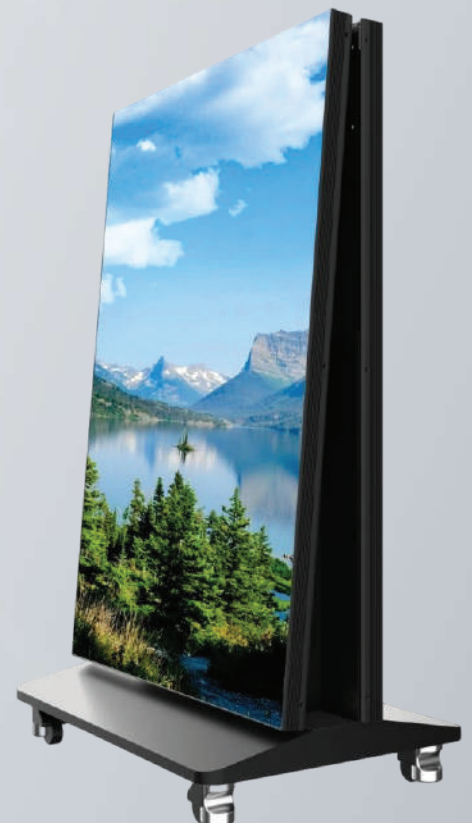

≥3840Hz

Protection

IP65

Controller

Huidu B6 or Novastar TB50
